

MEET YOUR CONTROLLERS!

The FAA Safety Team presents Pilot/Controller Forum
September 17, 6:30 PM
Legacy Jet Center upstairs conference room

Do you have a question for ATC? Would you like to meet the voices you hear on your radio? Experienced controllers from TUL will be here to help pilots understand what ATC needs to provide you with the best possible service, and to answer any questions you may have

Our Pilot/Controller Forum and Discussion will address current changes to the ATC system and changing responsibilities of both pilots and controllers. An open question and answer session will allow pilots and controllers to address these changes and any questions or concerns they may have.

This is a free event that is open to everyone but due to limited space we ask that only pilots or other aviation professionals attend.

Legacy Jet Center is located at 7120 East Apache
Tulsa, OK 74115
Phone 918-836-0222
